Macintosh setup poster

hp psc 2200 series all-in-one

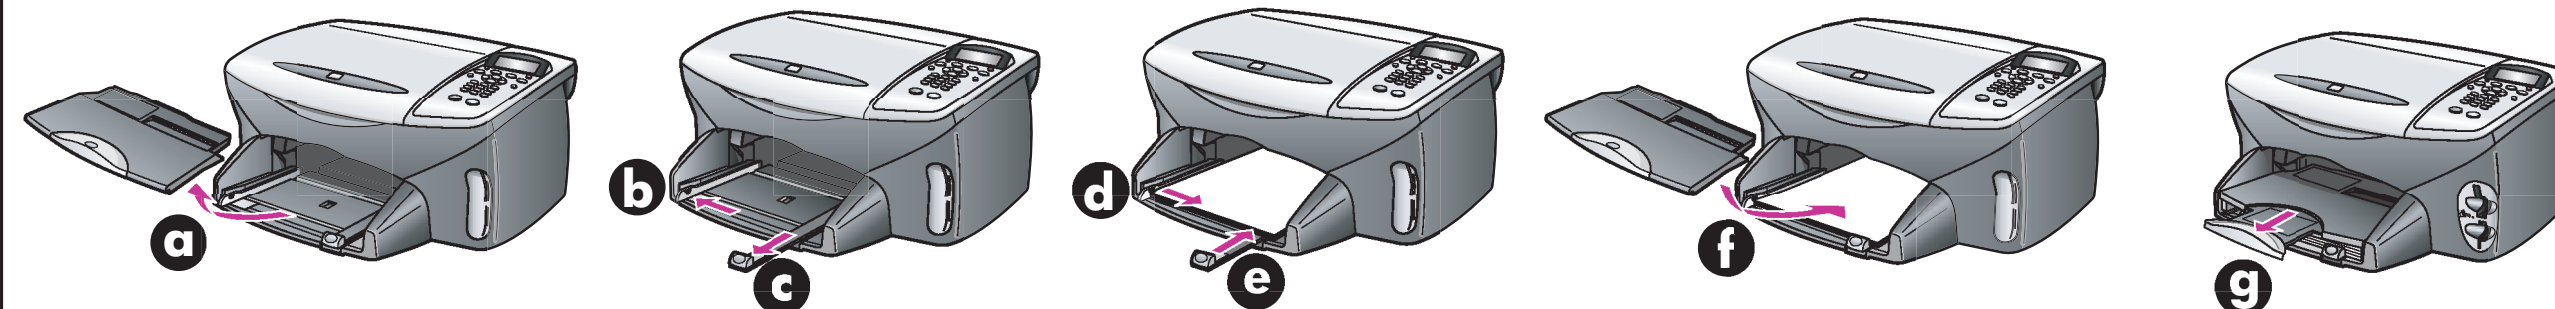

Make sure you are using the correct side of the poster.
See your box for exact contents and system requirements. Windows users: see other side.

1 ATTACH THE COVER

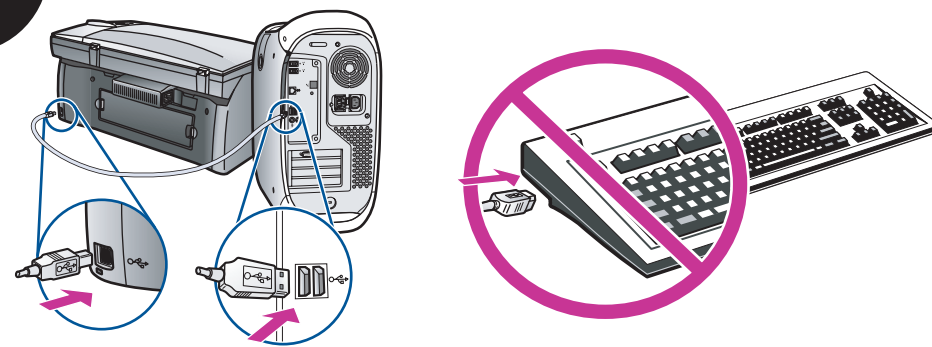

- a Insert the two bottom tabs of the cover into the slots on the unit.
- b Tilt the cover down and press firmly. Make sure the tabs lock into place and the cover is even with the unit.

2 Remove output tray and load paper

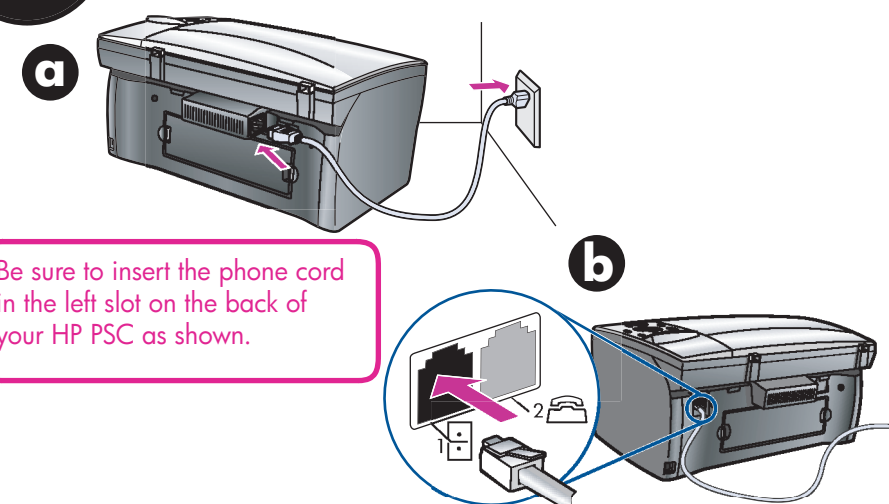

Use blank white paper to prepare for print alignment.

3 Connect the USB cable

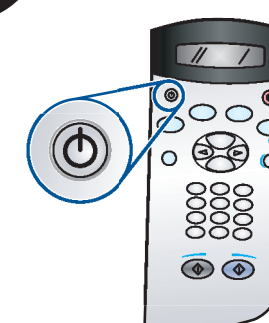

If you have an iMac, your USB port is on the side. Do not connect the HP PSC to a USB port on a keyboard or non-powered USB hub. See reference guide for more details.

4 Connect the power cord and phone cord

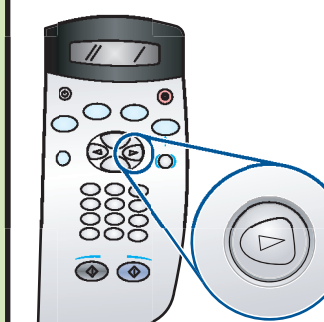

Be sure to insert the phone cord in the left slot on the back of your HP PSC as shown.

5 Turn on your HP PSC

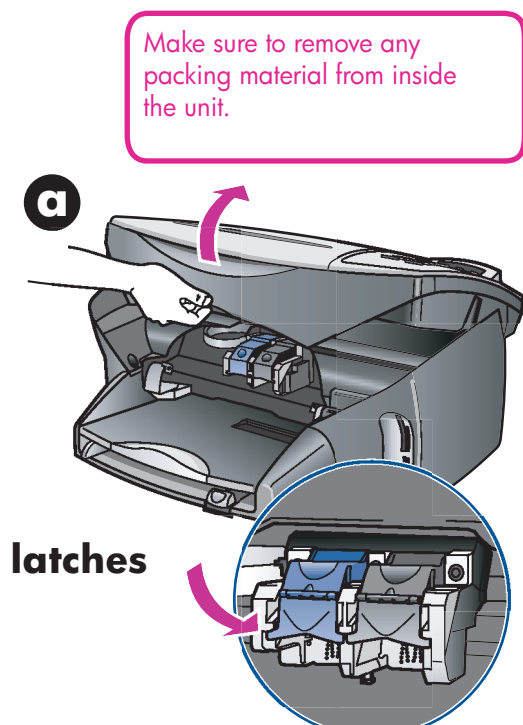

Turn power **On** and wait for display prompt.

6 Set language and country/region

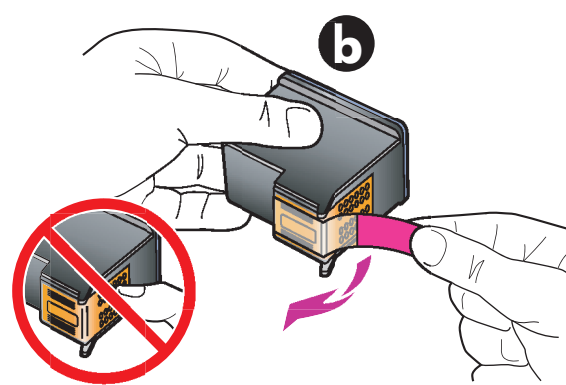

- a Use the arrow keys to scroll through the selections. Enter the code for your language on the keypad, and then confirm your selection.
- b Enter the code for your country/region, and then confirm your selection.

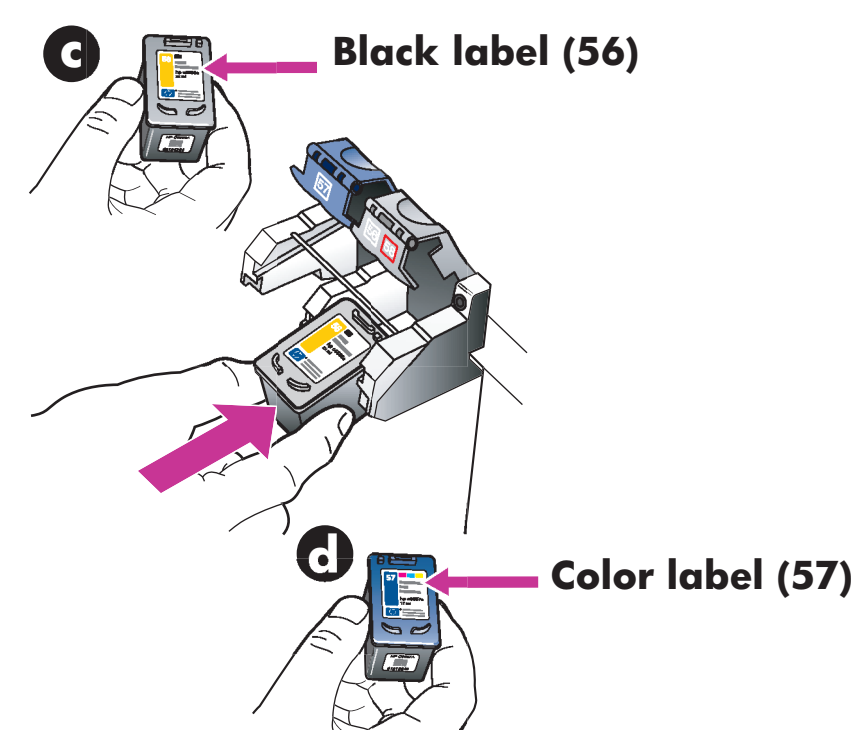

7 Insert and align the print cartridges

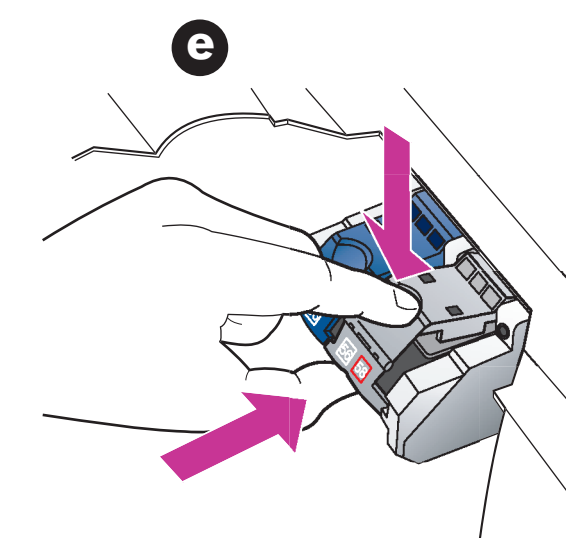

- a Lift the print carriage door up until it catches. Wait for the print carriage to move to the center. Lift the blue and gray latches.

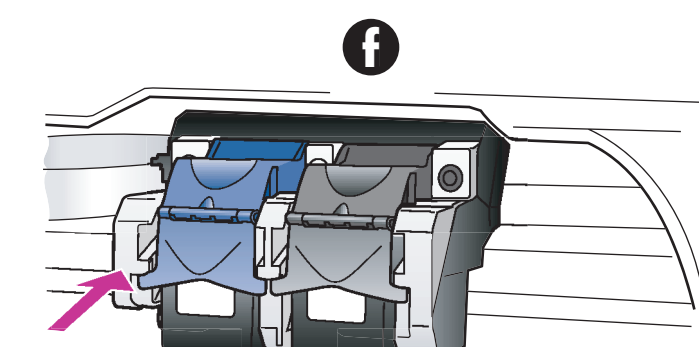

- b Remove the bright pink tape from the print cartridge. Do not touch the gold-colored contacts or retape the cartridges.

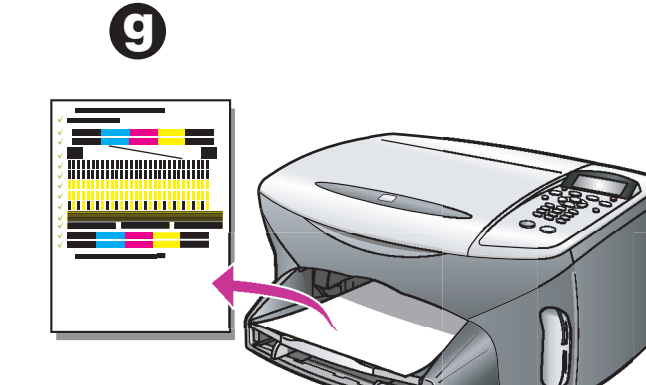

- c Hold the black print cartridge with the label on top as shown. Slide the cartridge into the right (gray latch) side of the print carriage.
- d Hold the color print cartridge with the label on top as shown. Slide the cartridge into the left (blue latch) side of the print carriage.

- e Pull the end of the gray latch toward you, press down until it stops, and then release. Make sure the latch catches below the bottom tabs. Repeat with blue latch.

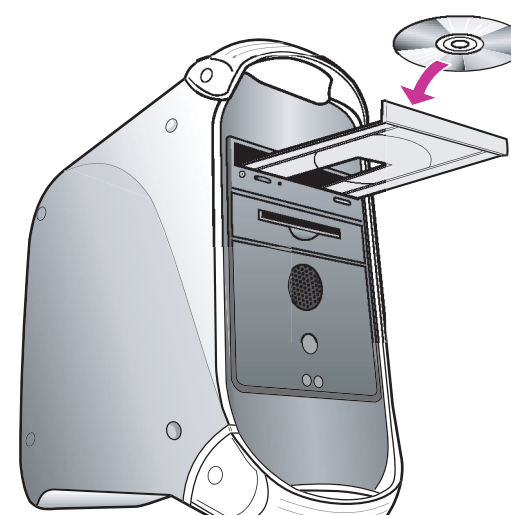

- f Make sure both latches are locked into position. Close the door.

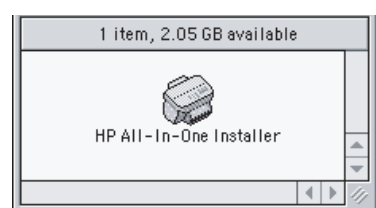

- g Press Enter to begin alignment. After a page prints, alignment is complete. Discard or recycle this page.

8 Install the software

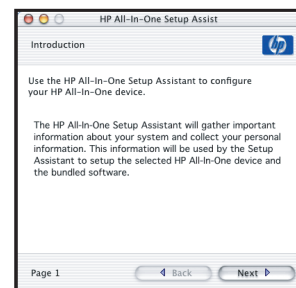

- a Turn your Macintosh on and wait for your Macintosh to finish starting up. Insert the HP PSC software CD.

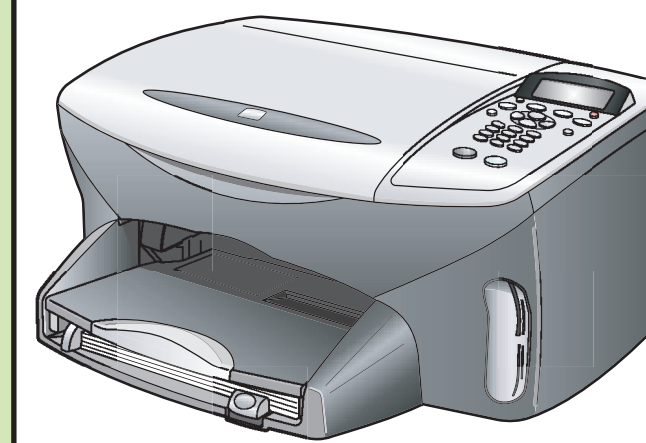

- b Double-click the HP All-in-One Installer icon on your desktop.

- c Follow the onscreen instructions. You may have to restart your Macintosh during setup. Be sure to complete the setup assistant.

9 Try your new HP PSC

Note: See the reference guide for adjusting the display viewing angle.

- Whats next?
 - Take the product tour
 - Use the Director
 - Check the reference guide for other ways to get started with your HP PSC.
